EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In page 1, line 3 of the specification, after "2002," the phrase -- now US Patent No. 6,743,334, -- has been inserted.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art does not teach nor fairly suggest the device and the method of making tissue as it is now claimed. Specifically, the closest prior art, Otto et al., does not teach nor suggest the combination of the suction-configured roll, the air emission system to help in the transferring of the web, along with the non-contacting support as claimed. Note that the method claims recite the limitations of the device and therefore, they are also novel and non-obvious, since it has been held that the method of using and making a novel and non-obvious product, the device in this case, is also novel and non-obvious. *In re Ochiai*, 71 F.3d 1565, 37 USPQ2d 1127 (Fed. Cir. 1995); and *in re Brouwer*, 71 F.3d 1565, 37 USPQ2d 1663 (Fed. Cir. 1996).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
